Parents Details:

Father name: Chintala Rama Krishna
Mother Name: Chintala Kalyani
Staying in: Rented house and his Father is working in a Transport Company
Monthly income: Rs.6000 (75 Euros)

Family History: His parents are married in 1999. Kiran is born in 2001. Later another boy was born in 2003. His father used to work in transport department and at the check post. His father got infected with HIV and not knowing his status. When Kiran is 3 years old he started getting sick regularly with recurrent fever and stunted growth and has allergy, lymph nodes swell etc, the doctor refereed for a HIV test and is tested HIV positive in 2006. Then the parents were tested for HIV and both are HIV positive. The family got transferred to Vijayawada and has been living here from 4 years. Both the parents and the boy are on antiretroviral therapy from 3 years.

Child history: Kiran is a Smart boy with gentle spirit. He likes to stay most of the time at home due to weakness. He has developed many complications and has Tuberculosis for the third consecutive year. He has stunted growth and lymph node swell and also developed small tumors here and there on the skin. He went to school until last year now he stopped going to school as the condition is not good. It has been a struggle for this boy from childhood fighting with infections. He is on antiretroviral therapy from 4 years and his overall condition has not improved.

Present health condition: Weak and unstable, stunted growth, underweight and height. Has tuberculosis and Lymphnodopathy.
